Dispensing Valve

DV-30H Poppet Valve

Data Sheet

Features

Small & horizontal type of DV-300. Good for installing to

Applicable Material

Low~ medium viscosity material.

Dimension

23 x 65.4 x 51 mm (0.91 x 2.57 x 2.01 in)

Weight 82g

Driving Air Pressure

> 0.4 MPa (58.02 psi)

Material Feeding Pressure

Max. 0.6 MPa (87.02 psi)

Flux (KV Value) 1.2L/min

Driving Part Material Aluminum

Wetted Part Material SUS303

TAEHA's Pneumatic metering valves are widely used in various industries to provide reliable and accurate dispensing solutions. From low-viscosity materials to high-viscosity materials that are difficult to dispense, we have a lineup of valves that can dispense accurately and consistently.

Excellent product quality control by owning a dedicated facility that processes and produces valve precision parts.

Benefits:

- Fast open and close.
- Suitable with numerous materials.
- Can be used in automation with very low payload capacity.
