

Dispensing Valve DV-400 Spool Valve

Data Sheet

Features

A durable high-pressure valve, Due to excellent snuffback structure, less ball-up effect after dispensing.

Applicable Material

Medium~High viscosity material.

Dimension 23 x L117.5 mm (0.91 x 4.63 in)

Weight 260g

Driving Air Pressure > 0.4 MPa (58.02 psi)

Material Feeding Pressure Max. 5.0 MPa (725.19 psi)

Scan the QR Code to see how it works.

Flux (KV Value) 2.1L/min

Driving Part Material SUS303

Wetted Part Material SUS303

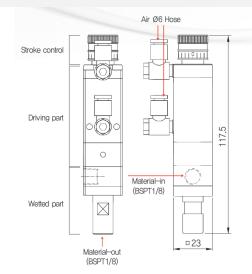

TAEHA's Pneumatic metering valves are widely used in various industries to provide reliable and accurate dispensing solutions. From low-viscosity materials to high-viscosity materials that are difficult to dispense, we have a lineup of valves that can dispense accurately and consistently.

Excellent product quality control by owning a dedicated facility that processes and produces valve precision parts.

Benefits:

- Fast open and close.
- Suitable with numerous materials.
- Can be used in automation with very low payload capacity.
