

Metering Valve PP-015 Plunger Valve

Data Sheet

Features

A volumetric valve for high precision dispensing.
Installed micrometer for fine regulating of shot volume.

Applicable Material

Low~ medium viscosity material.

Dimension

23 x 150 mm (0.91 x 3.24 in)

Weight

320g

Driving Air Pressure

> 0.4 MPa (58.02 psi)

Material Feeding Pressure

Max. 0.12 MPa (17.40 psi)

Shot Volume

0.05~0.15 cc

Driving Part Material

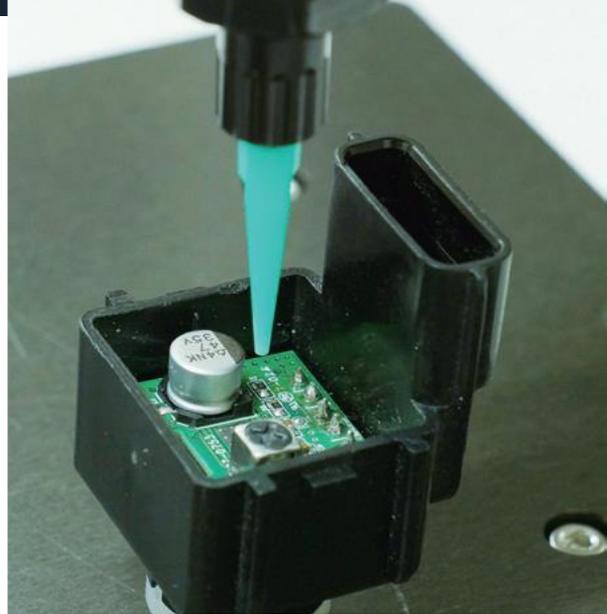

Aluminum

Wetted Part Material

SUS303

Product Details.

TAEHA's Pneumatic metering valves are widely used in various industries to provide reliable and accurate dispensing solutions. From low-viscosity materials to high-viscosity materials that are difficult to dispense, we have a lineup of valves that can dispense accurately and consistently.

Excellent product quality control by owning a dedicated facility that processes and produces valve precision parts.

Benefits:

- Fast open and close.
- Suitable with numerous materials.
- Can be used in automation with very low payload capacity.
